0. General notes

These products are articles according to article 3.3 of regulation (EC) no. 1907/2006 (REACh). It is not necessary to supply a Safety Data Sheet for these products. Safety Data Sheets stipulate according to Article 31 for hazardous substances and preparations, but not for articles. UNIPHOS is obliged to supply its customers with appropriate information to ensure safe handling. A special format is not required for this information.

1. Identification of the substance/mixture and of the company/undertaking

Product identifier: Relevant identified uses of the substance or n Use of the substance/mixture: Uses advised against:	Detector Tube Multi hixture and uses advis Detector tube The product is to be named in the direction	sed against used exclusively for	the applications

2. Hazards identification

Precautionary statement(s)

Other hazards:

Additional advice on labelling:

Classification of the substance or mixture:

As an article the product does not need to be labelled in accordance with EC-directives or respective national laws.

P273 Avoid release to the environment. Refer to special instructions / Safety data sheets.
 As an article the product does not need to be labelled in accordance with EC-directives or respective national laws.
 Detector tube: No hazards deemed to be of major importance.
 Content: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

4. First aid measures

Description of first aid measures	
After inhalation:	Not applicable for intact detector tubes.
	When indicator material is spilled: If you feel unwell, seek medical advice (show the label where possible).
After contact with skin:	Not applicable for intact detector tubes.
	When indicator material is spilled: Wash off immediately with
After contact with eyes:	plenty of water. Not applicable for intact detector tubes.
Alter contact with eyes.	When indicator material is spilled: In the case of contact with
	eyes, rinse immediately with plenty of water and seek medical
	advice (10 min).
After ingestion:	Not applicable for intact detector tubes.
	When indicator material is spilled: If you feel unwell, seek
	medical advice (show the label where possible).

5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media:	The product itself does not burn. Use extinguishing measures
	that are appropriate to the environment.

Extinguishing media which must not be used for safety reasons:	None.	
Special hazards arising from the substance or mixture:	None.	
6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures:	Release not possible if used properly.	
Methods and material for containment and cleaning up:	When indicator material is spilled: Mop up whilst dry dust formation. Avoid contact of breakage of glass a indicator material. Dispose of as described in sectio	ind
7. Handling and storage		
Precautions for safe handling		
Advice on safe handling:	See the specific Instruction for use.	
Advice on protection against fire and explosion:	No special precautions required.	
Conditions for safe storage, including any i	ncompatibilities	
Advice on storage compatibility:	Do not store together with edibles.	
Further information on storage conditions:	See the specific Instruction for use. Store in cool pla C)	ace (< 20°
